

## TC13 CORVERA

### ALBERTO HEVIA TAKES THE PRÍNCIPE

Alberto Hevia continued his run of fastest times when, once again, on the final stage of the Rally he was top of the timesheets something he has had little difficulty in achieving following the retirement of Conrado Fontana at the start of the second stage. His driving at the controls of the Skoda has given him a very important advantage and he has worked to consolidate this advantage in the National Asphalt Championship.

There are no other changes in the general classification from the positions following the second running of Corvera with Victor Senra maintaining his second position.

The completion of this stage sees the culmination of the 47 del Rally Príncipe de Asturias, and next will be the prize giving and the post-rally Press Conference which will be held at the finishing podium.
